

# Tetris® - User Guide

Tetris, the world-famous action puzzle game, is one of the most popular video games of all time. Manipulate falling Tetriminos to neatly pack them into lines and clear them from the Matrix. As the Tetriminos fall more quickly, don't let them stack too high! Simple yet addictive game play keeps you entertained for hours.

## Playing Tetris

- Rotate falling Tetriminos and move them left or right to pack them into the Matrix like puzzle pieces.
- Fill a horizontal line, with no gaps, to clear it and score points.
- Score big points by clearing multiple lines at once. Clearing four lines at once is a Tetris.
- Play moves faster and faster as you advance.
- When a new Tetrimino is blocked from entering the Matrix, it's game over.

**Tetrimino:** Falling shape composed of four squares. Move and rotate it so it fits neatly.

**Ghost Piece:** Shadow image showing where the Tetrimino will land. To turn Ghost Piece on or off, choose Options > Ghost Piece.

**Goal:** Shows number of lines to be cleared to reach the next level.

## Controls

- **Pausing** – Press Menu anytime to pause the game.
- **Music** – From any menu screen, you can use the [PLAY/PAUSE ICON], [REWIND ICON], and [FAST-FORWARD ICON] buttons to control the music. Set the music source in the Options menu (see below).

## Game Modes

Tetris has three game modes:

**Marathon** – Score as many points as you can in 15 levels.

**40 Lines** – Clear 40 lines as fast as you can. Faster times give higher scores.

**Ultra** – Score as many points as you can in three minutes.

## Navigation of the Menu

### **Main menu**

- **Play** – Start a new game.
- **Volume** – Adjust the overall volume.
- **Options** – Set game options.
- **Records** – Check high scores.
- **Help** – Learn more about Tetris.
- **Exit** – Quit Tetris.

## Options menu

Choose an Option or press Menu to go back to the main menu.

- **Audio** – Choose music and volume settings.
  - **Volume** – Adjust the overall volume.
  - **Game Music** – Set the music source:
    - **Auto** – Hear music from your iPod, or if no music is playing when you start Tetris, hear Tetris music.
    - **Off** – Hear music from your iPod.
    - **On** – Hear Tetris music.
  - **Effects** – Turn sound effects on or off.
- **Brightness** – Adjust the screen brightness.
- **Ghost** - Turn Ghost Piece on or off.
- **Erase Records** – Clears high scores. Available only if no game is in progress.
- **About** – Read the fine print.
